5. Academic Program

Course Updates and Highlights

LabVIEW Core 1 Overview

In the LabVIEW Core 1 Course, you will explore the LabVIEW environment and interactive analysis, dataflow programming, and common development techniques in a hands-on format. In this course, you will learn how to develop data acquisition, instrument control, data-logging, and measurement analysis applications. At the end of the course, you will be able to create applications using the state machine design pattern to acquire, analyze, process, visualize, and store real-world data.

Course Last Release Date or Version Number:

- Instructor-led Virtual: 23.0
- On-Demand: 21.0

Upcoming Course Releases

- **Developing Test Programs Using TestStand**
- **Object-Oriented and Programming in LabVIEW**
- **Managing Systems and Assets with SystemLink Server**

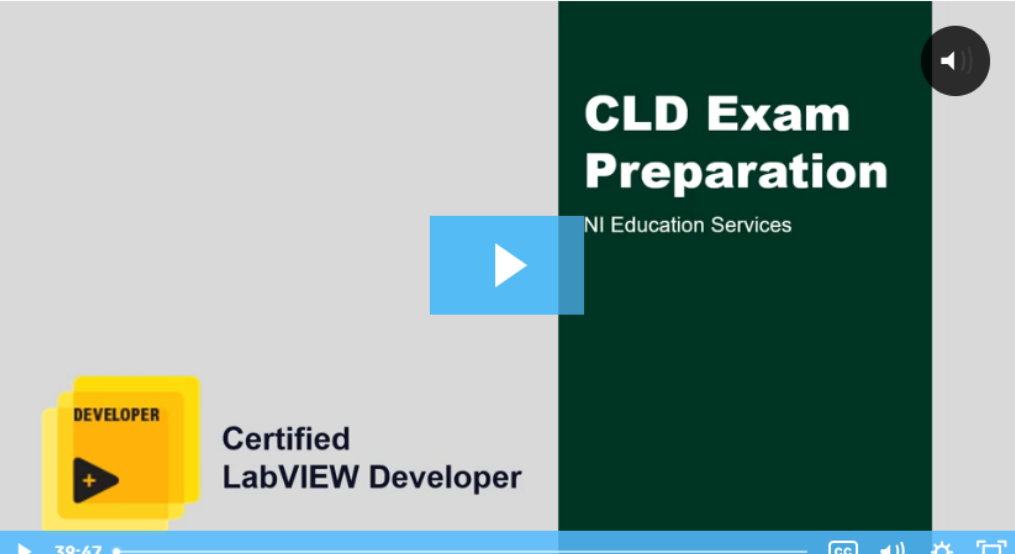

Certification

Demonstrate your skills to create applications with NI software and give customers, peers, and employers confidence in your abilities. The Certification Program is standardized globally for secure testing across organizations or countries.

Preparing for Your Exam

- [Download the CLD Preparation Guide](#)
- [Download the CLD Success Package](#)
- [Download the CLD Sample Exams](#)
- **NEW!** Prepare for the Exam with the video below.

NI Authorized Training Partner

To promote NI products, through its Training and Certification Program, NI has launched the Authorized Training Partner Program.

An NI Authorized Training Partner is a certified third-party provider that delivers training on behalf of the NI Education Services organization.

The partner provides the classroom for **public in-person** training, and typically also provides the infrastructure for demonstrations and exercises.

An Authorized Training Partner may also be an NI Distributor, or it may be an independent training provider.

Academic Program

Academic Volume License

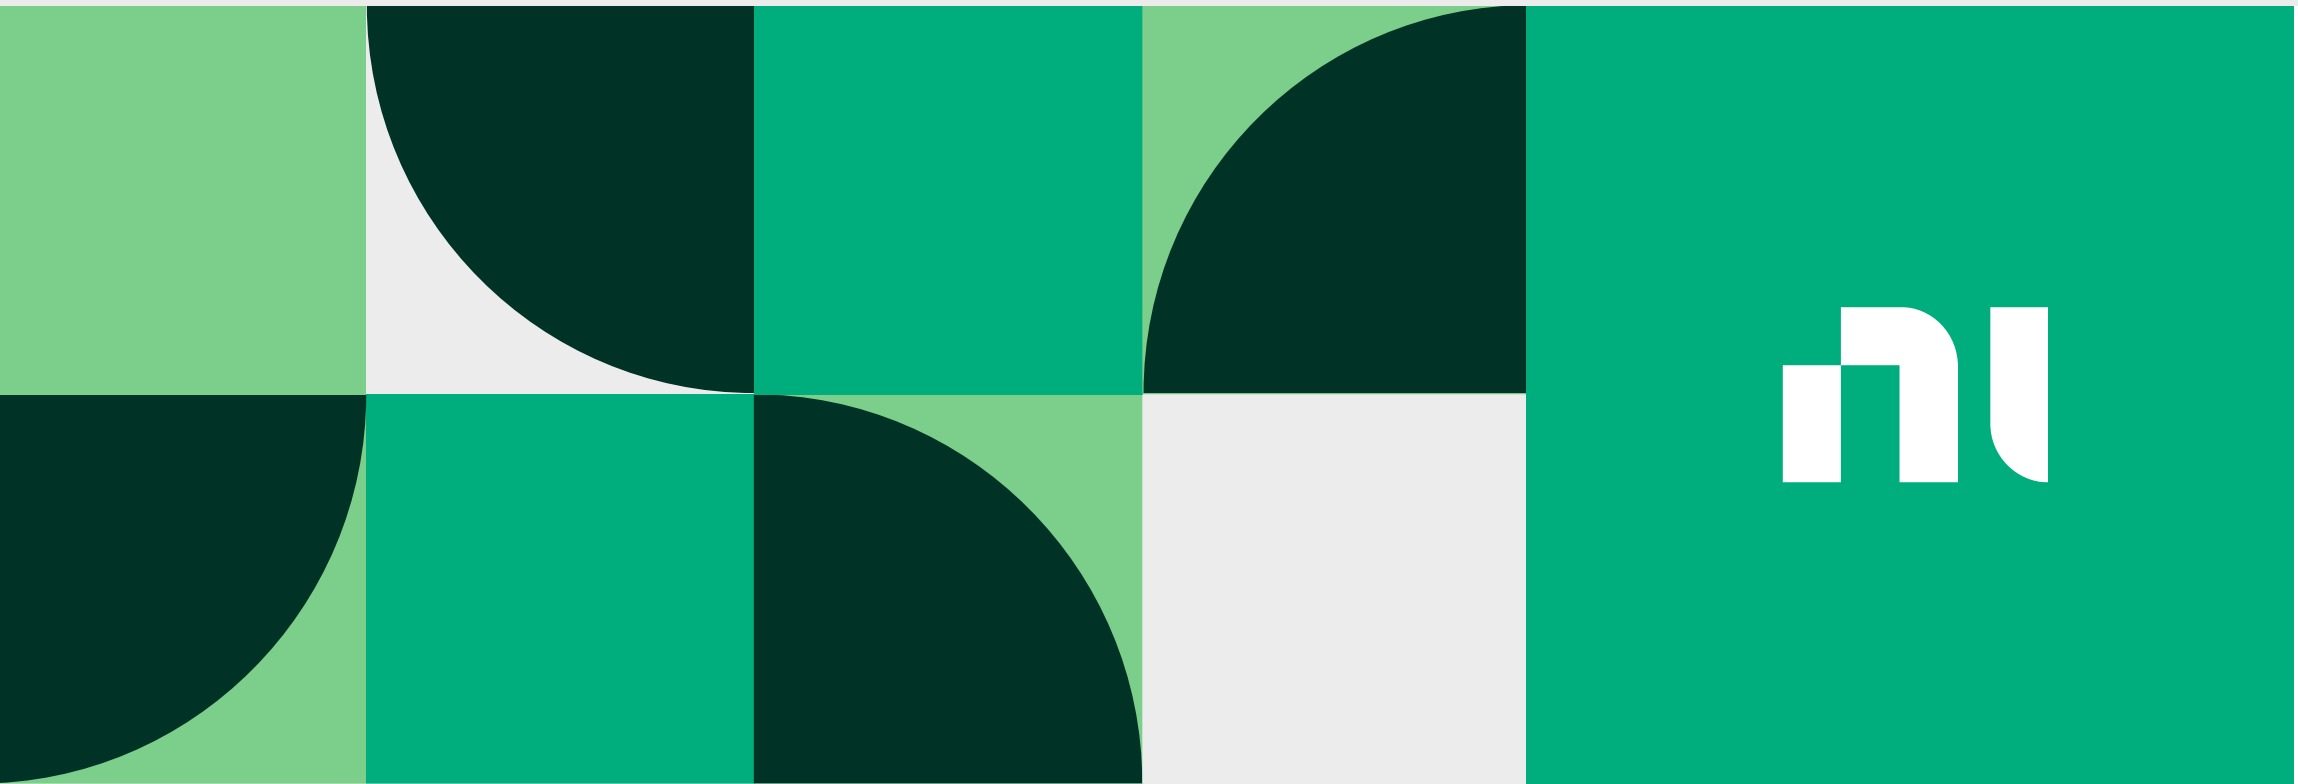

Get all the NI software you and your students need to be successful in one cost-effective, easy-to-manage package.

Access to:

- **Teaching materials**
- **Selected number of instructor-led courses and certification exams**
